# DIGITAL SIGNAGE

Digital signage is ideal for internal communication and public information. It is equally suitable for universities, schools, public places like train stations and airports, companies or institutions.

It is also a great advertising medium. Digitize and process information from a wide variety of sources for audio and / or visual playback, to reach your defined target group.

DIGITAL SIGNAGE

DIGITAL SIGNAGE VARIETY - Suitable for many applications
from small display size 18.5" up to floor stand size of 65"

Digital signage is ideal for internal communication and public information. It is equally suitable for universities, schools, public places like train stations and airports, companies or institutions.
It is also a great advertising medium. Digitize and process information from a wide variety of sources for audio and / or visual playback, to reach your defined target group.

EDUCATION

Digital Signage is an advanced communications solution for all school levels. It can provide important announcements in short time, welcome new students, publish news on the beginning of the school year, reminders for students, teachers or parents and contents of the website of the educational institution.

RESTAURANTS

Individually customizable digital displays provide dynamic content at strategic points in your restaurant. Publish information on menu items, special promotions, appetizing videos, latest news in real time or view posts in social media.

HOTELS

Digital Signage presents the perfect solution for guest-related ads on the premises. Publish information on services and special offers, personalized welcome messages for conference groups, nearby attractions, schedules for shows and entertainment, etc.

RETAIL

With a product size ranging from smallest displays for sales counters to impressive 65" devices, offer your customers a digital exploration trip through your business. Create announcements and advertising messages in real-time. Put your brand in the limelight!

We are looking forward to your interest in our new products. For further information, please contact us:
