M a k e R e m o t e M e e t i n g S m a r t e r

Kandao Meeting

is popular around the world

A black, sleek, and modern conference device with a central vertical column and two side-mounted microphones. The device features several control buttons: a microphone mute button at the top, a 'REC' button with a red indicator light, a 'MODE' button, and a 'LOCK' button at the bottom. The base of the device has a perforated grille.

Kandao Meeting Pro

Meeting Huge Upgrade, Perfection never be Late

Kandao Meeting Pro is the upgraded version of Kandao Meeting. Retaining all the shining function of Kandao Meeting, but also develop it as an independent and powerful 360 ° conferencing device.

CES Innovation Award 2021

Push Past the Limitation with Four-in-One Design

Built-in Android System + 360 Camera + Omni-Directional Mics + Hi-Fi Speaker
with Audio and Video AI Algorithm

360 Camera

Omni-Directional Mics

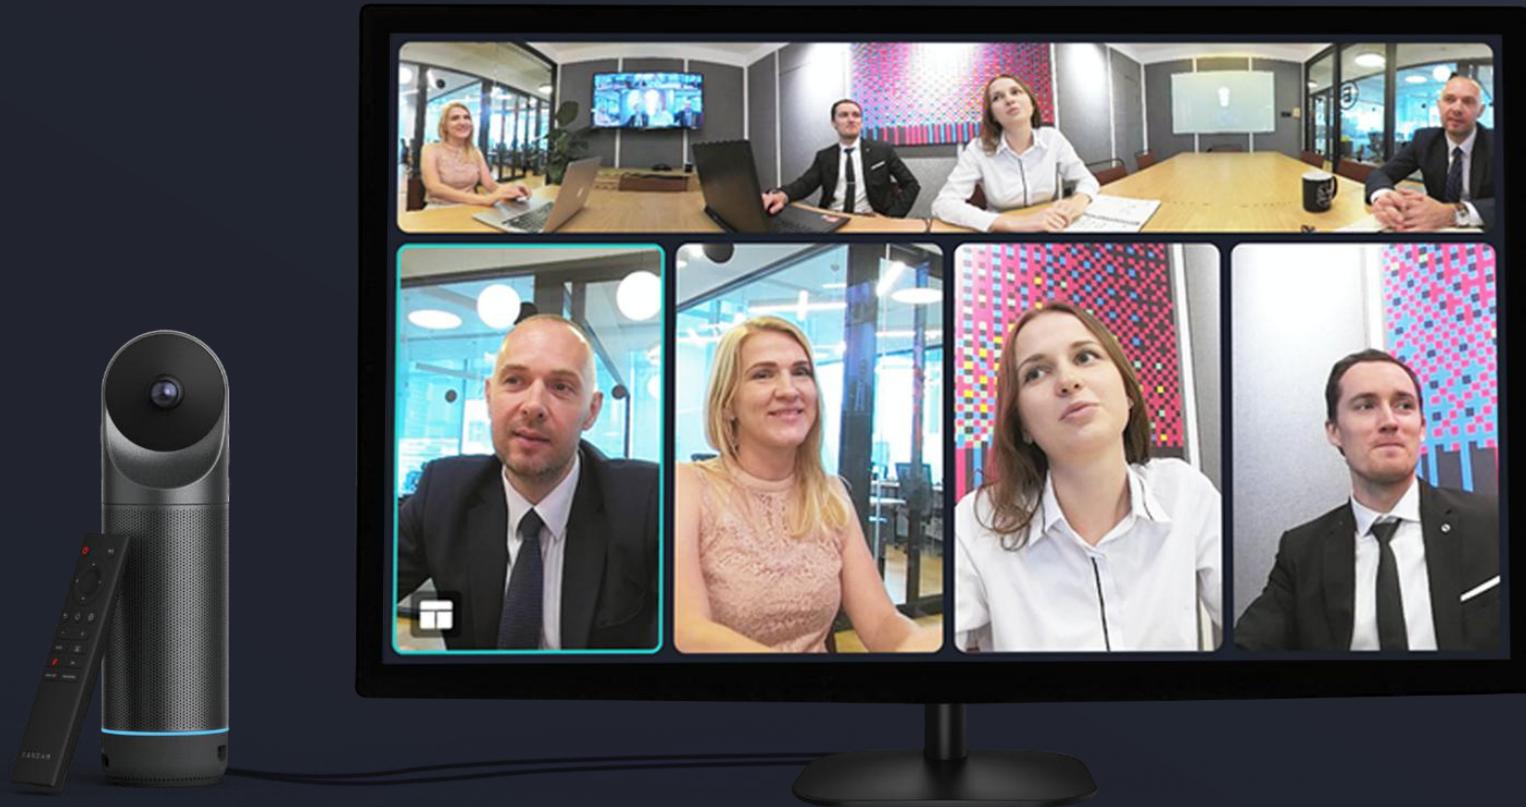

Hi-Fi Speaker

Intelligent AI Algorithm

No Need for External Controlling System

Built-in Operation System

With built-in Android system, the video conferencing software can be installed and used directly in the device, and the conference can be started by connecting the HDMI display.

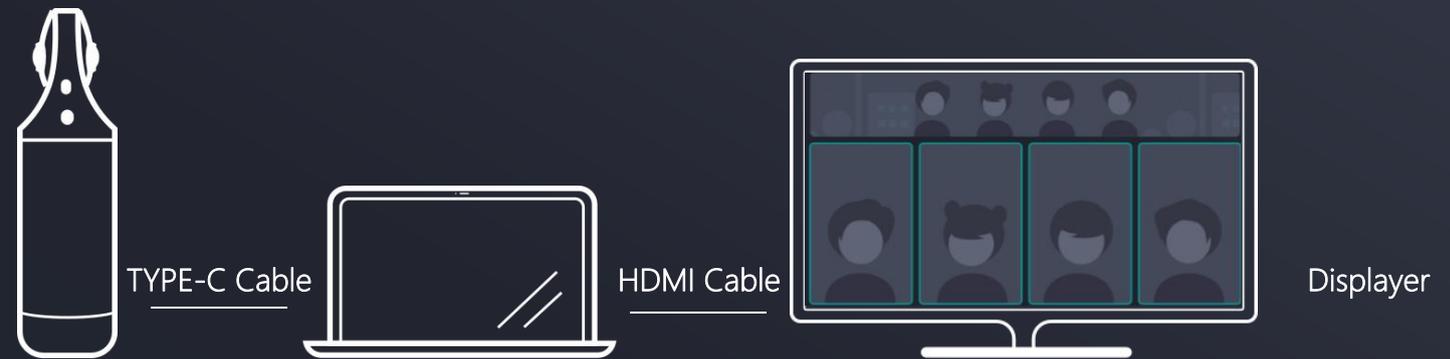

Easily Update Conferencing Software

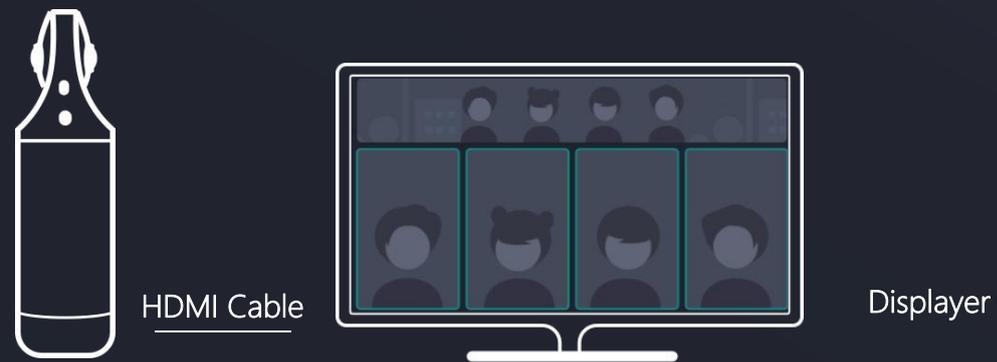

Most of the common conferencing software are supported, and can be installed and switched easily. Strong compatibility for flexible operation.

Different Modes

Common Mode
USB Connection

Pro Mode
Only Meeting Pro

360 Meeting without Blind Spot

Detailed image processing with 360 ° image capture, seamless optical flow stitching, noise reduction, wide dynamic range, exposure compensation, and automatic white balance.

Upgraded Omni-directional Audio System

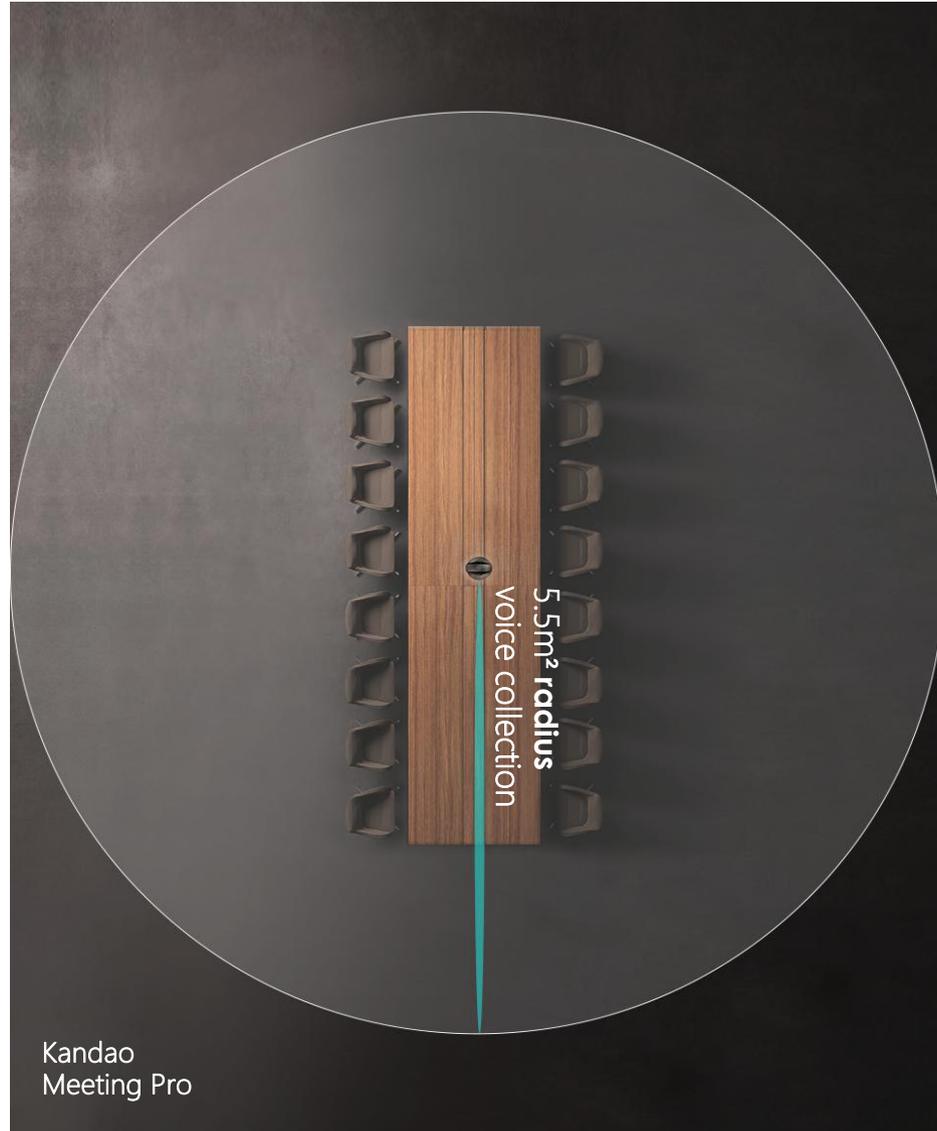

8 microphones are improved to achieve finest audio quality, which can cover range to 5.5 meters radius. Collect sound with beamforming, echo cancellation, noise reduction, and howling suppression.

Unique Hi-Fi Speaker

Output louder, sound clearer, more focus, so that communicate better

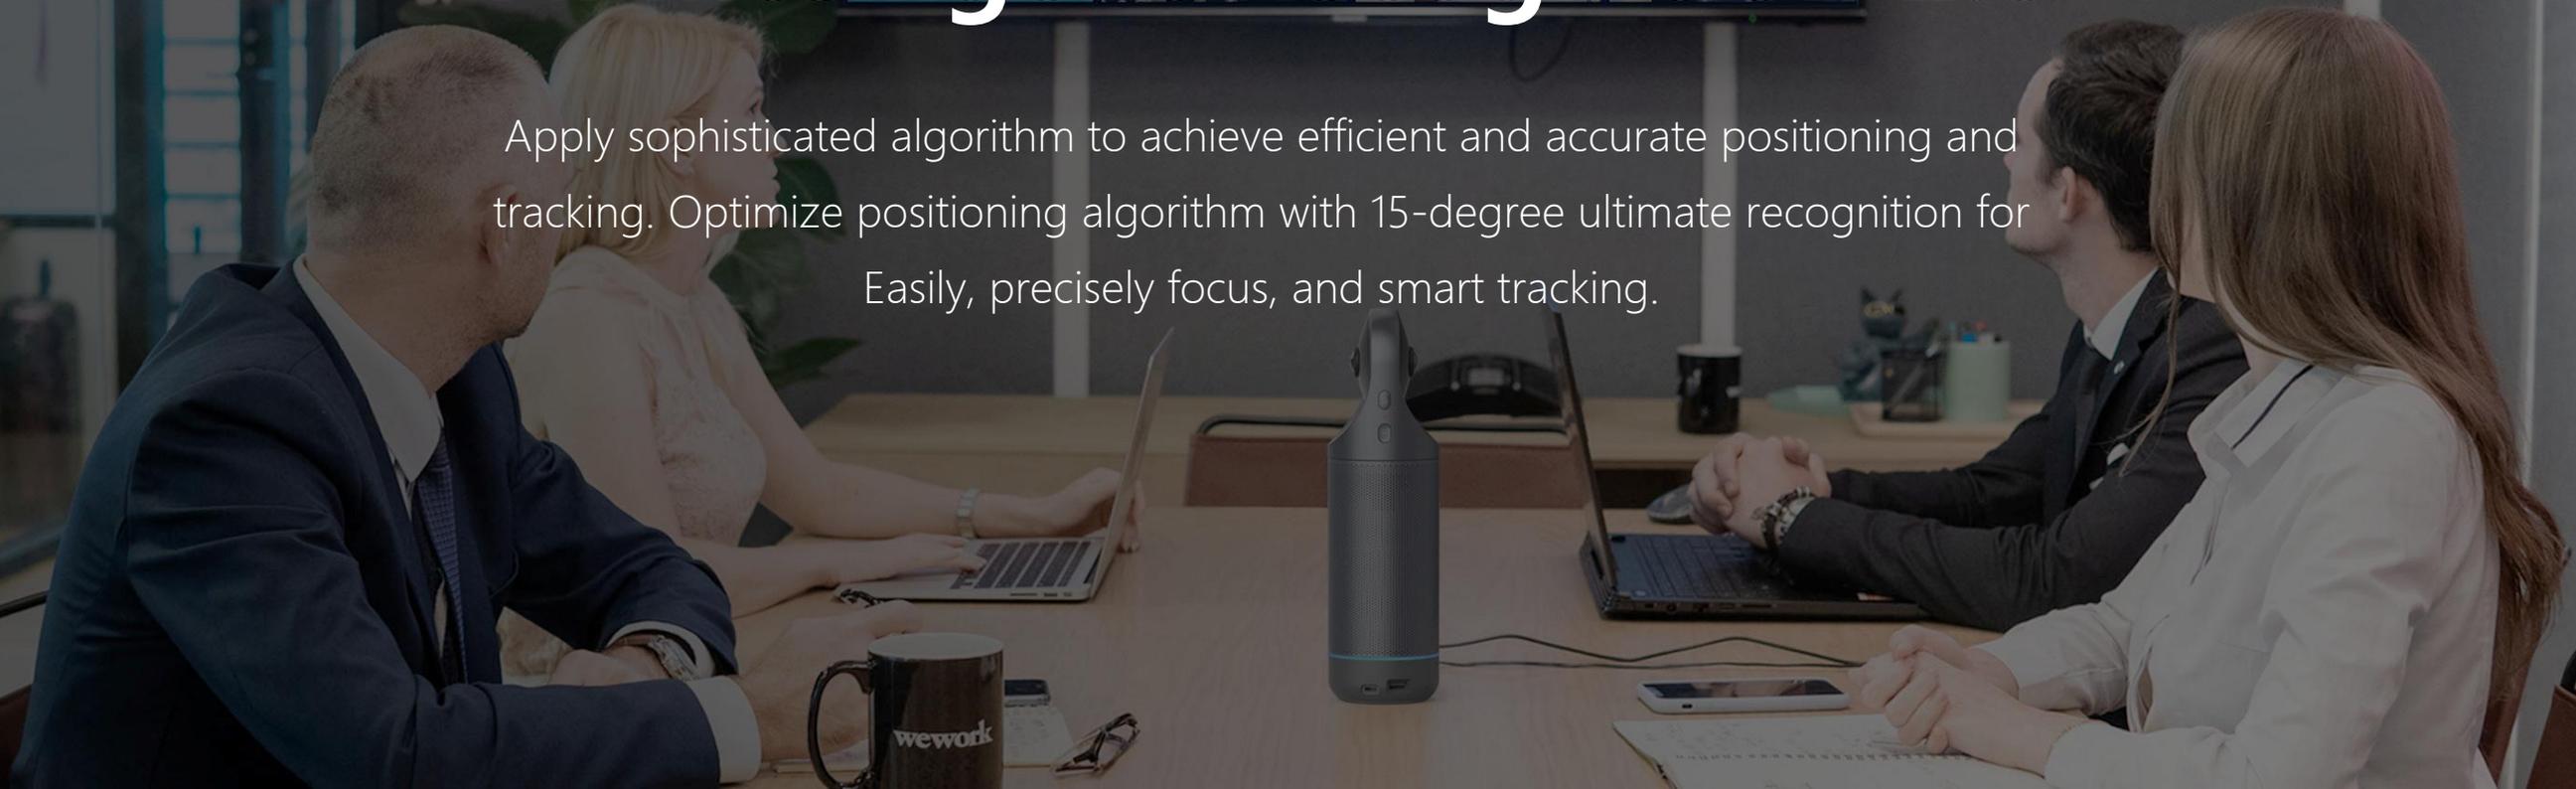

Two-times
larger Coverage Area

AI Intelligent Recognition 2.0

Apply sophisticated algorithm to achieve efficient and accurate positioning and tracking. Optimize positioning algorithm with 15-degree ultimate recognition for Easily, precisely focus, and smart tracking.

Speaker can always be in Center

According to AI face recognition and sound localization, Kandao Meeting Pro bring immersive meeting experience for participants by automatically focusing on the speaker and emphasizing the gesture and facial expression.
